QRE STICK TECHNOLOGY

QRE

EDGE TAPER

EDGE TAPER

The angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response and is more stable and plays stronger.

MINIMUS CARBON 15000

MINIMUS CARBON 15000

High Strength, lightweight unidirectional carbon design. The QRE 10 shaft is lighter and tougher than ever. The material is dynamic and elastic, providing excellent feel for all parts of the game.

FUEL CORE + BLADE

FUEL CORE +

A lightweight polymer blade core that enhances puck feel and makes shots pop. Now with our 25K Enigma Carbon weave around the core redesigned to be even tougher. The texture on the blade increases the feel for the puck. FuelCore + reduces breakdown of materials in the blade and increases the durability and feel.

SHADOW FEEL

SHADOW FEEL

Shadow Feel construction creates the most well-balanced stick ever built and enhances how the stick feels during play giving you more control and response.

SLIDE GRIP

SLIDE GRIP

Textured zones only where you need them to provide optimum grip and control. Removing the texture from areas you don't making it easy to slide your hands for poke checks, face offs, and puck battles.

STICKS

COVERT QRE 10

EDGE TAPER | The angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response, is more stable and plays stronger.

MINIMUS CARBON 15000 | High Strength, lightweight unidirectional carbon design. The QRE 10 shaft is lighter and tougher than ever. The material is dynamic and elastic, providing excellent feel for all parts of the game.

SHADOW FEEL | Shadow Feel construction creates the most well-balanced stick ever built and enhances how the stick feels during play giving you more control and response.

FUELCORE+ | A light weight polymer blade core that enhances puck feel and makes shots pop. Now with our 25K Enigma Carbon weave around the core, it's redesigned to be even tougher. The texture on the blade increases the feel for the puck. FuelCore+ reduces breakdown of materials in the blade and increases the durability and feel.

SLIDE GRIP | Textured zones only where you need them to provide optimum grip and control. Removing the texture from areas you don't making it easy to slide your hands for poke checks, face offs, and puck battles.

ALPHA DX STICK TECHNOLOGY

ALPHA DX

DYNAMIC STRIKE

The new ALPHA DX line of sticks builds on 20 years of research and know-how to deliver DYNAMIC STRIKE. Allowing you to strike anywhere, anytime. Whether taking hard shots from the blue line or puck handling in tight situations the DX is primed and ready. The Sabre Taper combines low kick with a stable powerful release, that is just as explosive for quick wristers as it is for hard slapshots.

SABRE TAPER

SABRE TAPER

Our exclusive taper design that combines low kick response with a stable powerful release. This easy to load design provides a quick release and more accurate shots.

FUEL CORE BLADE

FUEL CORE BLADE

A lightweight polymer blade core that enhances puck feel and makes shots pop. Composite layering around the core is redesigned to be stronger and tougher. FuelCore reduces breakdown of materials in the blade and increases the durability.

MINIMUS CARBON 14003

MINIMUS CARBON 1400

High Strength, lightweight flat weave carbon design. The material is more dynamic and elastic than anything we've ever made, providing excellent feel for all parts of the game.

PHANTOM FEEL

PHANTOM FEEL

Phantom construction creates a balanced, lightweight stick and enhances how the stick feels during play giving you more control and response.

ERGO

SHAFT SHAPE

ERGO SHAFT SHAPE

The ergonomic contour shaped shaft fits comfortably and securely in your hands enhancing touch and feel for better deking, dragging, and shooting.

APEX

PERFORMANCE GRIP

APEX GRIP TEXTURE

Textured zone coupled with tacky soft grip finish locks easily in your hands for peak control and accuracy.

ALPHA DX

ALPHA ONE PRO HELMET

TRUE ONE PRO SHELL | A one piece high density plastic shell that provides a superior stiff, strong and lightweight barrier of advanced protection. The True One Pro shell has a distinct geometry designed to balance a slim look and provide good impact diffusion.

OMNISHOCK PROTECTION SYSTEM W/ IMPAX FOAM | A holistic approach to head protection. All shell and liner compositions are integrated by design in a low standoff sleek system. Focused impact zones on the frontal lobe, temples and occipital are reinforced with Impax absorb pods that diffuse energy. Impax pods absorb both linear and twisting impacts. The True One Pro shell and EPP is the core of safety forming a lightweight barrier that provides protection against catastrophic injury. The Impax pods are designed for specific soft and medium hits.

ADAPTFIT 270 BY BOA | In a fast moving game like hockey helmet fit is paramount to maximize safety and comfort. The AdaptFit 270 fit system is micro adjusted with a BOA dial pulling the liner to your head. The control and individual fit of the helmet will allow you to wear it safely and comfortably for extended periods.

FLOW COMFORT POLYGIENE LINER AND VENTING | Wearing a helmet should not be irritating. Our removable flow liner pads are treated by Polygiene. They absorb sweat, dry quickly to keep you cool and odor free. Airflow through the shell is optimized by design to keep you from overheating.

COLOR CUSTOMIZATION | In every box use the easy to apply side decals to customize your helmet with a splash of color.
