BAUER HELMETS AND COMBOS (Measurements in US Standard & Metric)

Fitting

- 1. Open helmet to its largest setting and position on the head so that the front edge of the helmet is one finger width above the eyebrows.
 - 2. Slide the front and back portions of the helmet together until a comfortable, snug fit is achieved.
 - 3. Tighten the adjustment mechanism.
- Players should only use CSA, HECC and CE certified helmets. These helmets have stickers affixed that indicate their compliance with the applicable standards.

BAUER REACTOR "SLINGSHOT" PASSER

36" [1063087]
48" [1063088]

FEATURES AND TECHNOLOGY

Description

Constructed with a powder-coated metal base for long lasting durability and features solid rubber bumpers along both sides for accurate passing, reception and rebounding of the puck. The plastic top has a recessed handle to allow practicing saucer passes over the top. The heavy duty plastic top provides durability but also allows for player agility training with no worry of skate blades getting damaged. Players can also pass the puck through the middle of the slingshot to hide it from view of the opposition with it reappearing at the last second for quick shooting and passing drills.

Features

The versatility of the Bauer/SlingShot has everyone from Minor Hockey to the Pros using them.

The player's age or skill level is not a factor. The SlingShot will improve your passing, receiving, shooting, agility, reaction time, stick-handling and over all skills.

Great tool for goalies too.

The SlingShot is available in 36 & 48 inch lengths which are great for transporting to and from the rink.

Features	Help players refine their shooting skills by providing a screen to avoid when shooting on the goalie.
	The Reactor Shot Screen/Blocker simulates a real life defender and allows you the opportunity to visualize your opponent; Use multiple defenders to simulate multiple defender scenarios such as a double team or wall
	EASY QUICK SETUP - The Reactor Shot Screen/Blocker sets up in seconds and folds in half for easy transportation to the rink; No tools required
	ULTRA PORTABLE - allows you to move it quickly and easily anywhere on the ice during your practice or training session
	TRAIN ANYWHERE - The Reactor Shot Screen/Blocker works great both for outdoor or indoor training; Perfect for team or solo training

Highly durable to accept all types of shots.

REACTOR DIGITAL SPINNING DEFENDER

[1065362]

FEATURES AND TECHNOLOGY

Description	A spinning hockey defender, also known as a spinning or rotating dummy, offers several benefits for hockey players
-------------	--

Features	Improved Agility: By simulating the movement of an opponent, a spinning hockey defender helps players develop agility and quick decision-making skills necessary to maneuver around defenders during game play
	Stickhandling Practice: Players can practice stickhandling techniques while navigating around the spinning defender, enhancing their ability to control the puck under pressure.
	Shooting Accuracy: Shooting at targets while the defender rotates helps players improve their shooting accuracy and precision, as they must aim for specific areas of the net while the defender moves.
	Game-like Simulation: The spinning defender creates a dynamic and unpredictable training environment that closely mimics real-game scenarios, allowing players to better prepare for in-game situations.

CUSTOMIZER LOGO REQUEST

A HOW TO SUBMIT A LOGO

When submitting a logo for a team's locker, the logo must be in a vector format (e.g.: .Ai / .Eps / .Pdf). The logo within this file should be converted to vectors and be an editable file.

To submit a logo, please fill out the logo request form and email to: logorequests@bauer.com

B COLOR SPECIFICATIONS

During the logo submission process, team colors need to be clearly specified. Our customizer offers a wide range of colors so in order to make sure that team colors are correct, they need to be submitted properly.

When filling out the logo request form, please identify the team's colors by name or by using the Pantone number, if available, in the notes section. Pantone numbers are preferred as they are the industry standard for the color matching process.

Please note: colors on screen may look different than physical samples. To ensure a close match, please try to provide as much information as possible when submitting logos so that we can do our best to match the team's colors and expectations.
