BAUER HELMETS AND COMBOS (Measurements in US Standard & Metric)

Fitting

1. Open helmet to its largest setting and position on the head so that the front edge of the helmet is one finger width above the eyebrows.
2. Slide the front and back portions of the helmet together until a comfortable, snug fit is achieved.
3. Tighten the adjustment mechanism.

Players should only use CSA, HECC and CE certified helmets. These helmets have stickers affixed that indicate their compliance with the applicable standards.

BAUER REACTOR "SLINGSHOT" PASSER

36" [1063087]

FEATURES AND TECHNOLOGY

Description

Constructed with a powder-coated metal base for long lasting durability and features solid rubber bumpers along both sides for accurate passing, reception and rebounding of the puck. The plastic top has a recessed handle to allow practicing saucer passes over the top. The heavy duty plastic top provides durability but also allows for player agility training with no worry of skate blades getting damaged. Players can also pass the puck through the middle of the slingshot to hide it from view of the opposition with it reappearing at the last second for quick shooting and passing drills.

Features

The versatility of the Bauer/SlingShot has everyone from Minor Hockey to the Pros using them.
 The player's age or skill level is not a factor. The SlingShot will improve your passing, receiving, shooting, agility, reaction time, stick-handling and over all skills.
 Great tool for goalies too.
 The SlingShot is available in 36 & 48 inch lengths which are great for transporting to and from the rink.

LOGO REQUESTS

MYBAUER CUSTOM PLATFORM

A SEARCH FOR EXISTING TEAM

Prior to submitting a logo request, please ensure that the **TEAM** is set up in the MyBauer Custom Platform. When searching for a team, we recommend using keywords opposed to the full team name for best search results. For example, ST. THOMAS TOMMIES, we would suggest using THOMAS or TOMMIES as the search word, instead of using ST. or SAINT to account for name variations.

B REQUESTING A NEW TEAM

When requesting a new team, please provide the full team name as it would appear on their website or social pages. You can provide additional information such as web links and league in the Comment section. Once your team has been approved and set up by admin, you will receive an email notification.

C LOGO SUBMISSION REQUIREMENTS

When submitting a logo for a team or organization, the logo must be in a vector format (e.g.: .Ai / .Eps / .Pdf). The logo within this file should be converted to vectors and be an editable file.

i) UNACCEPTABLE FILES

Non-vectorized artwork is not ideal due to the fact that they are generally low resolution and become blurry / pixelated when scaled up.

NON-ACCEPTABLE FILES
.JPG / .BMP / .GIF / .TIFF / .PNG

ii) ACCEPTABLE FILES

Vector artwork allows you to scale an image to any dimension without losing any quality.

ACCEPTABLE FILES
.AI / .EPS / .PDF / .SVG

D COLOR SPECIFICATIONS

During the logo submission process, team colors need to be clearly specified. The MyBauer Custom Platform offers a wide range of colors so in order to make sure that team colors are correct, they need to be submitted properly.

When filling out the logo request form, please identify the team's colors by name or by using the Pantone number, if available, in the notes section. Pantone numbers are preferred as they are the industry standard for the color matching process.

Please note: colors on screen may look different than physical samples. To ensure a close match, please try to provide as much information as possible when submitting logos so that we can do our best to match the team's colors and expectations.

To submit a team or logo, please reach out to your BAUER REP for instructions and training on the MyBauer Custom platform.
