ALPHA **PRO****MINIMUS CARBON 3****Zero Seams.
All Power.**

Engineered to fit like a second skin and built for explosive speed and elite-level support.

- One-Piece Power Shell
- Thermoform Composite Fit
- Ultra-Light with Max Support

ALPHA PRO

**FUEL CORE****Unmatched Comfort.
Explosive Power.**

Engineered for max energy return and pressure-free comfort, the **Fuelcore Tongue** molds to your stride and keeps you locked in with every shift.

- Max Energy Return
- Pressure-Point Protection

**XCL****Fast, Locked,
and Loaded.**

The **XCL Blade Holder** is designed for elite edge control and fast blade swaps. Stay agile, stay ready—every time you hit the ice.

- Quick-Release Blade System
- Precision Power Transfer
- Lightweight, Rock-Solid Stability

XCL-S | XCL-D

Dial in your glide with **Brushed Stainless XCL-S** or upgrade to **DLC Coated XCL-D** for elite edge retention and long-kick performance.

ALPHA PRO

MINIMUS CARBON 3

Elevate your game with the Minimus Carbon 3 One-Piece Boot. Designed for players who demand the best, this boot offers a perfect blend of power transfer and next level fit.

Key Features:

- **Custom Fit:** Thermoformable composite material molds precisely to your foot, providing a personalized fit that enhances comfort and reduces break-in time.
- **Seamless Construction:** The one-piece design eliminates unnecessary seams and joints, reducing weight and increasing overall structural integrity for a more responsive feel.
- **Enhanced Energy Transfer:** The advanced composite construction maximizes energy transfer from your foot to the ice, giving you explosive acceleration and powerful strides.
- **Superior Support:** Engineered to provide optimal support and stability, the boot helps you maintain control during quick turns and high-speed maneuvers.
- **Lightweight, Durable:** The rigid composite shell offers exceptional support while remaining lightweight, ensuring long-lasting performance.

FUELCORE

Experience unparalleled performance with our innovative Fuelcore Tongue, designed to elevate your game to the next level. Engineered with advanced materials, this tongue provides exceptional comfort, ensuring a snug fit that adapts to your movements, while delivering maximum energy return.

Key Features:

- **Enhanced Energy Transfer:** The unique construction maximizes energy return with every stride, giving you explosive speed and agility on the ice.
- **Superior Comfort:** Highly cushioning foam reduces pressure points and enhances overall comfort, allowing you to focus on your game.

INTUITION™

Introducing the revolutionary Intuition Liner, the first of its kind in hockey skates. Designed to provide unmatched comfort, performance, and customization, the Intuition Liner sets a new standard for elite athletes and recreational players alike.

Key Features:

- **Lightweight** - Heat Moldable (Thermo-formable)
- **Excellent memory** - Low shrinkage when heated, shaped and cooled
- **Re-moldable** - High bond strength -Non-toxic -Does not absorb water

XCL

Unlock your full potential on the ice with the XCL Blade Holder, the ultimate in precision and performance. Engineered for elite players, this blade holder offers lightweight stability, responsiveness and power transfer, ensuring you stay ahead of the competition.

Key Features:

- **Lightweight Stability:** The XCL Blade Holder's innovative design provides a rock-solid connection between the boot and the blade, delivering superior stability and control during high-speed maneuvers.
- **Quick Release Mechanism:** Change your blades in seconds with the easy-to-use quick release system, allowing you to adapt to different ice conditions without missing a beat.
- **Optimized Energy Transfer:** Precision tuned stiffness maximizes energy transfer from your foot to the ice, giving you explosive acceleration and powerful strides.
- **Durable Construction:** Built to withstand the demands of intense play, the XCL Blade Holder is crafted from high-quality materials that ensure long-lasting performance.

XCL-S | XCL-D

Premium XCL Blades in Brushed Stainless Steel (XCL-S) offer the ultimate balance of durability and performance. For next level edge retention and glide try our DLC Coated XCL-D blades.

COVERT QR7 PRO

EDGE TAPER | Its angular design drives energy straight through the lower shaft, supercharging your shot with serious power and speed. The unique shape adds rock-solid stability, giving you a crisp, confident feel every time you let one rip.

EDGE BLADE | With a bold new shape where blade meets ice, it grips the puck like never before—making it easier to load up and unleash shots in a flash. Wrapped in ultra-light Minimus Carbon 25, it delivers elite-level feel and stays sharp shift after shift.

MINIMUS CARBON 25 | This advanced carbon weave is all about performance. It's incredibly thin, insanely light, and tough as nails—so you get a stick that's fast in your hands and fierce in the corners. Minimus Carbon 25 keeps you quick, strong, and ready for anything.

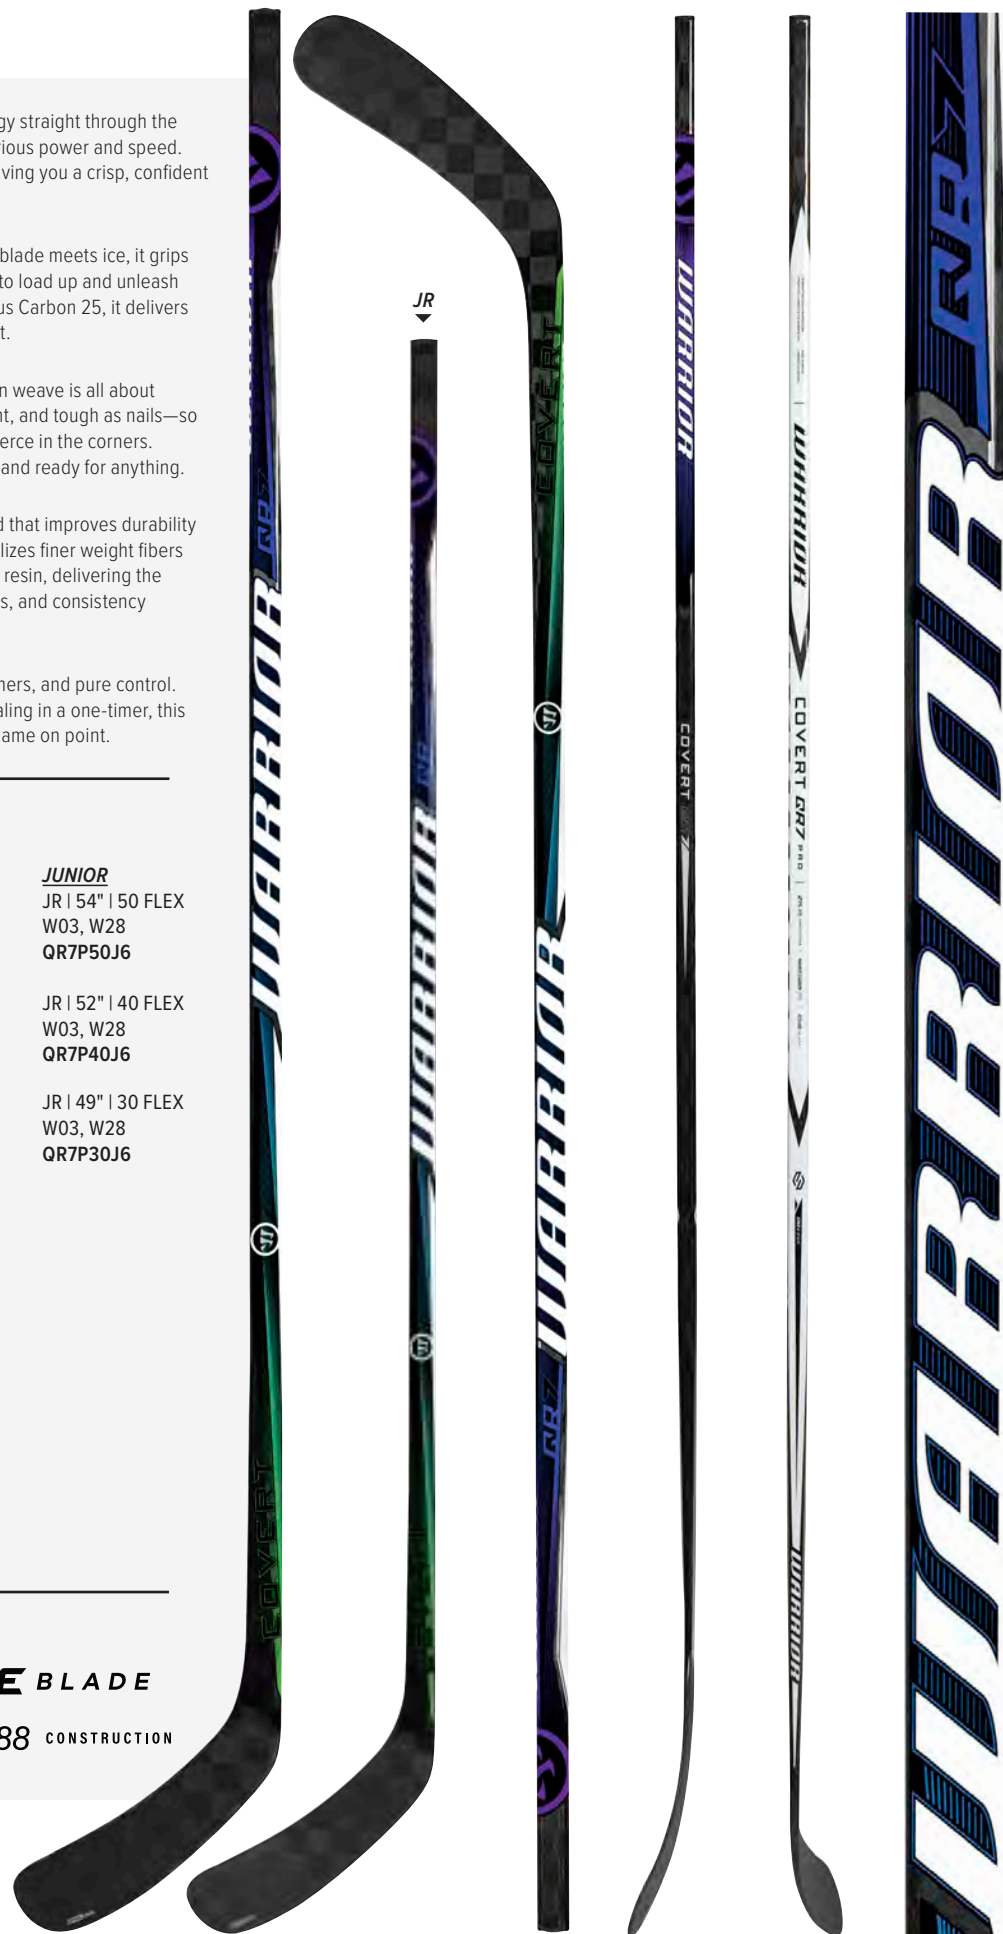

P. L. 188 | A reimagined construction method that improves durability while also reducing overall stick weight. It utilizes finer weight fibers along with a thermoplastic-toughened epoxy resin, delivering the balanced combination of lightness, toughness, and consistency expected by professional players.

D. G. SHAFT SHAPE | flat sides, rounded corners, and pure control. Whether you're dangling through traffic or dialing in a one-timer, this shape keeps your hands locked in and your game on point.

QR EDGE TAPER | Its angular design drives energy straight through the lower shaft, supercharging your shot with serious power and speed. The unique shape adds rock-solid stability, giving you a crisp, confident feel every time you let one rip.

MINIMUS CARBON 15 | Lightweight, high-strength carbon fiber weave that offers extreme toughness and durability.

L. 155 | Premium-grade construction that provides unmatched bending strength and impact resistance. A select blend of fibers and toughened resin chemistry brings weight reduction without sacrificing the elite level of balance and durability.

FUELCORE | Built for players who want that crisp, connected feel every time they touch the puck. Its lightweight polymer core gives your shots extra snap, while the outer layer of Minimus Carbon 15 keeps the blade strong and responsive. That means better feel, more pop, and a blade that stays dialed in game after game.

D. G. SHAFT SHAPE | flat sides, rounded corners, and pure control. Whether you're dangling through traffic or dialing in a one-timer, this shape keeps your hands locked in and your game on point.

ALPHA LX3 PRO

ALLOY CARBON | A metal layer that brings a strength to weight ratio never before seen in Warrior sticks. Improved stability and accuracy on shots and passes.

SABRE TAPER | Our exclusive taper provides a stable, powerful, and controlled release, providing pinpoint accuracy on shots. Built for players that rely on accuracy from anywhere and stability when shooting.

ERGO SHAFT SHAPE | The ergonomic contour shaped shaft fits comfortably and securely in your hands, enhancing touch and feel for better deking, dragging, and shooting.

P.L. 188 | A completely reengineered construction that provides improved durability and weight reduction – A more refined construction process using lower weight fibers and thermoplastic-toughened epoxy resin that creates the consistent level of balance, weight, and durability that our pro players expect.

MINIMUS CARBON 25 | Alpha LX3 Pro shaft is lighter and tougher than ever. Using our 25K weave carbon fiber creates a lightweight and durable hockey stick.

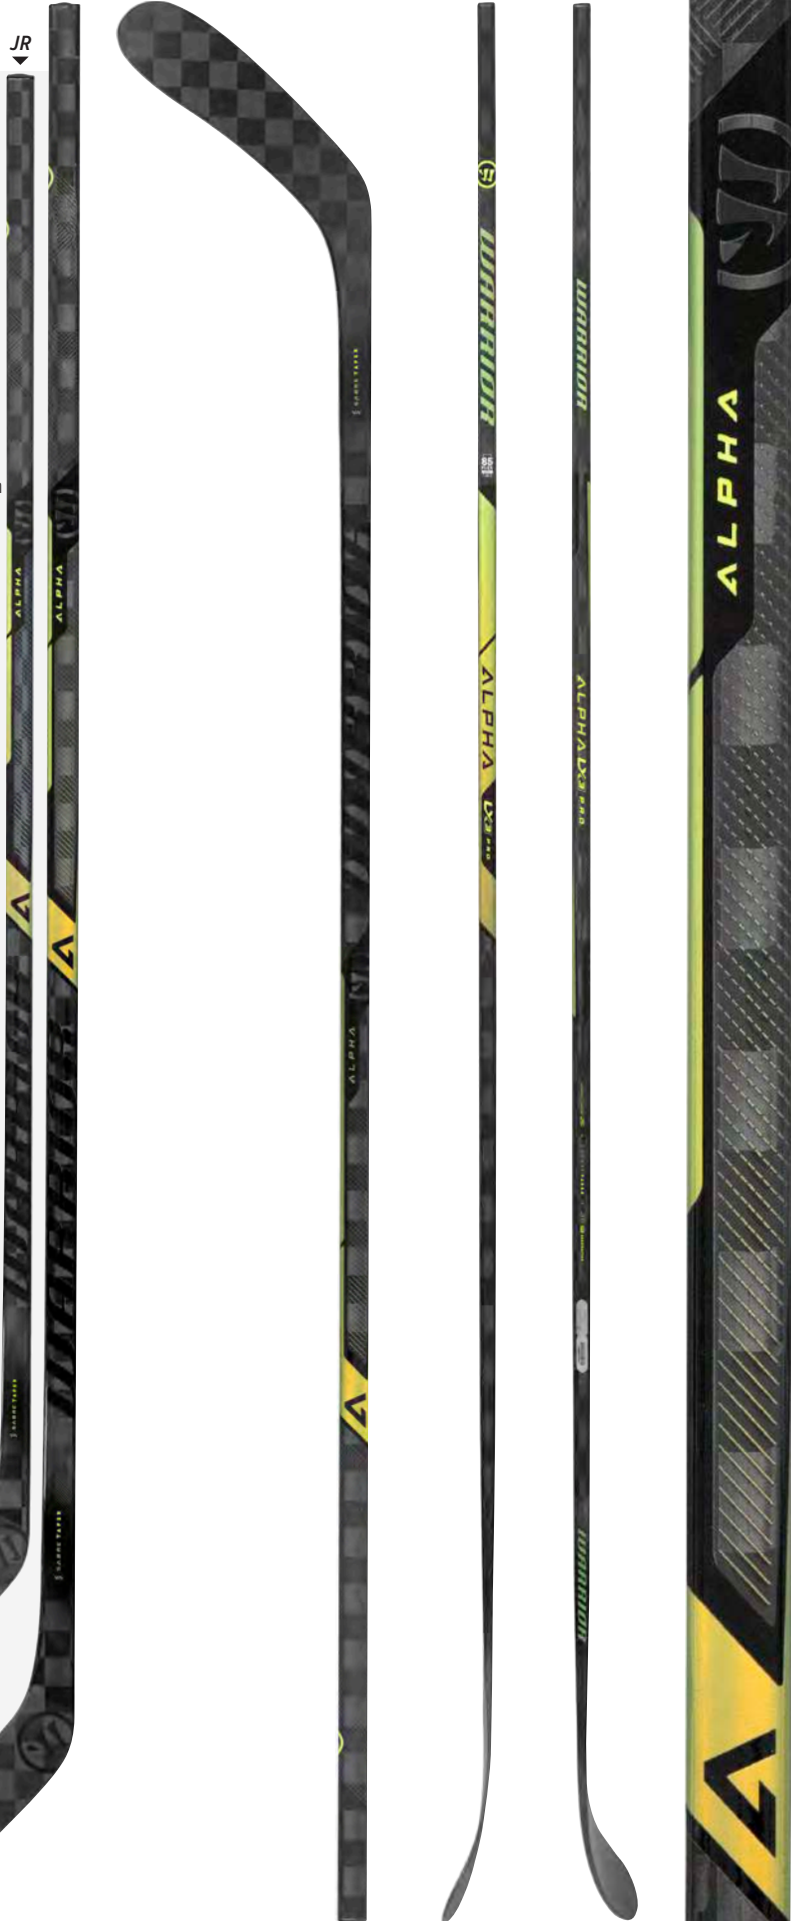

FUELCORE ULTRA | Proprietary blade core material and layup structure maintains crisp and solid puck feel throughout the life of the stick. The polymer blade core is wrapped with high-grade carbon fiber and Minimus Carbon 25 outer weave. Texture on the blade surface increases grip on the puck.

APEX GRIP TEXTURE | Textured shaft surface coupled with a tacky soft grip finish locks easily in your hands for peak control and accuracy.

ALPHA LX3

SABRE TAPER | Our exclusive taper provides a stable, powerful, and controlled release with pinpoint accuracy on hard shots. Built for players that need reliable accuracy from anywhere, and dependable stability when shooting.

ERGO SHAFT SHAPE | The ergonomic contoured shaft fits comfortably and securely in your hands, enhancing touch and feel for better deking, dragging, and shooting.

L. 155 | Premium-grade construction that provides unmatched bending strength and impact resistance, A select blend of fibers and toughened resin chemistry brings weight reduction without sacrificing the elite level of balance and durability.

MINIMUS CARBON 6 | Alpha LX3 shaft is lighter and tougher than ever. Using a 6K carbon fiber weave creates a lightweight and durable hockey stick.

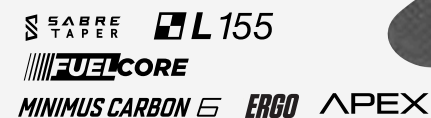

FUELCORE | Our lightweight polymer blade core that enhances puck feel and makes shots pop. Now with Minimus Carbon 6 weave around the core is lightweight and strong. Texture on the blade increases the feel for the puck. FuelCore Pro reduces breakdown of materials in the blade and increases the durability and feel.

APEX GRIP | A tacky soft grip feel that locks your hands in place for peak hand control.

NOVIUM 2 PRO

BEVEL TAPER | The unique Bevel Taper is designed to be stiffer through the taper which provides unrivaled control, and accuracy. The stiff taper zone allows the stick to load higher in the shaft which creates more leverage and increased velocity on shots.

MINIMUS CARBON 25 | This carbon weave is a flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The custom weave is thin and light, yet extremely strong and resistant to damage.

R.L.199 | A completely re-engineered construction that provides improved durability and weight reduction by using lower weight fibers and thermoplastic-toughened epoxy resin that creates the consistent level of balance, weight, and durability that the most elite players in the world expect from a stick.

O.G. SHAFT SHAPE | Flat side walls with rounded corners provides consistent feel and control for stickhandling, shooting, and passing.

FUELCORE ULTRA | The polymer blade core reinforced with our proprietary rib design is tough and durable and is wrapped with high-grade carbon fiber and our Minimus Carbon 25 outer weave which creates the most responsive blade in our lineup.

BEVEL TAPER | The unique Bevel Taper is designed to be stiffer through the taper which provides unrivaled control, and accuracy. The stiff taper zone allows the stick to load higher in the shaft which creates more leverage and increased velocity on shots.

MINIMUS CARBON 25 | This carbon weave is a flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The custom weave is thin and light, yet extremely strong and resistant to damage.

L 155 | Premium-grade construction that provides unmatched bending strength and impact resistance. A select blend of fibers and toughened resin chemistry brings weight reduction without sacrificing the elite level of balance and durability.

O.G. SHAFT SHAPE | Flat side walls with rounded corners provides consistent feel and control for stickhandling, shooting, and passing.

FUELCORE | A lightweight polymer blade core that enhances puck feel and makes shots pop. Minimus Carbon 25 layering around the core is redesigned to be stronger and tougher. FuelCore reduces breakdown of materials in the blade and increases the durability.

HOW IT WORKS?

Customers will submit orders through their local Warrior Hockey retailer. The following information must be provided for the stick order: style, flex, blade pattern, stick hand and name wanted on the stick.

HOW TO SUBMIT THE ORDER:

Once the order is placed, please send the stick specs, name, and PO number to Warrior via: customs@warrior.com.

WHAT IS THE TURNAROUND TIME?

Turnaround time for the names on sticks program is one week or less. Sticks can be shipped directly to the store for pick up or to the customer if desired.

WAR-TECH

COVERT TAPER FIT | The glove contours and flexes with the natural shape of your hand. It is a fit that hugs your wrist and hand makes the glove feel like an extension of you providing optimal control over every movement and the ultimate in mobility and protection.

AXYFLEX THUMB | Mobility and dexterity through the hand and fingers is enhanced with the AXYFlex Thumb and foam mesh gussets.

BUTTERSOFTEEL | Responsive Lycra gussets, AXYFLEX THUMB and anatomical stretch backhand give Alpha gloves a noticeable snappy, game ready feel right off the shelf.

EXO+ DUO-LAM | Extremely lightweight blend of 2 layers of foam, a HD VN and a mid-density foam combined with plastic inserts in the backhand, cuff, and fingers that keep your hands protected against the hardest of impacts.

PRO PALM X | A pro tested Ax Suede palm with embossed grip that offers a great mix of feel and durability.

WAR-TECH LINER | Designed to keep you clean, dry and odor free.

ALPHA ONE HELMET

CORE TECHNOLOGY
TRUE ONE SHELL | **OMNISHOCK+ SYSTEM** | **adaptFIT 360**

TRUE ONE SHELL | A one piece high density plastic shell provides superior stiff, strong and lightweight barrier of advanced protection. Designed to provide best in class impact diffusion coupled with a profile that is aesthetically sleek.

OMNISHOCK+ PROTECTION SYSTEM W/ VICONIC INSERTS | Focused impact zones on the frontal lobe, temples and occipital are enhanced with a lightweight diffusion plate called Viconic. Viconic absorbs multiple impacts both linear and twisting. The Impax soft touch foam shield and the Viconic pods are special elements designed for specific small and large impacts. The OmniShock+ system is enhanced hockey helmet design.

ADAPTFIT 360 BY BOA | The AdaptFit 360 provides fit equalization all around your head with the micro adjustment of a BOA dial.

COLOR CUSTOMIZATION | In every box use the easy to apply side decals to customize your helmet with a splash of color.

ALPHA LX 20 PANTS

ALPHA PRO FIT | Tailored pro fit to follow natural skating posture. New anatomical fit thigh pad design provides maximum mobility and protection. The minimalist form fitting style allows you to remain quick and agile in game play.

ADJUSTABLE LEG EXTENSION | Fit versatility for the growing player and or the player looking for more finite adjustment. A zippered gusset allows for a 1" leg extension.

PREMIUM PROTECTION | A floating internal waist belt offers a comfort fit and holds lightweight premium protection on your hips, waist and thighs as you move throughout play. Spine and kidney pads include IMPAX foam.

MINIMUS OUTER SHELL | A mix of premium denier nylon weaves focused on lightweight, durability and mobility. Added ventilation zones and new hamstring padding adds even more breathability and protection.

LINER | Stay cool and dry during play.

ALPHA GIRDLE

ALPHA PRO FIT | Tailored pro fit to follow natural skating posture. The minimalist form fitting style allows you to remain quick and agile in game play.

KIDNEY AND SPINE PROTECTION | Intergrated premium molded spine and kidney protection including IMPAX foam spine moves with you as you skate and pivot.

PREMIUM PROTECTION | A strategically placed foam and plastic protection secure to your legs and hips for hard, fast game play.

WARTECH FNC LINER | A Powered by Polygiene so you are always cool, dry and odor free - the very best equipment for staying fresh and clean.

AFS ADVANCED FASTENING SYSTEM

HyperComp Brackets

Highly rigid knee block increases butterfly stability and sliding speed.

Stainless Screws

HyperComp Brackets

Alpha Surge Knee Block

SURGE LEG PADS

- **Advanced Fastening System** | Engineered with precision-built knee and calf blocks secured by rigid C-shape HyperComp brackets, this system elevates pad stability and slide efficiency. By minimizing shifting during butterfly transitions and locking in a consistent ice seal, it maximizes goaltender performance with every movement.
- One-Piece core construction combined with dual layer HyperComp thigh rise panels delivers an uncompromising seal to the ice and explosive rebound control.
- Designed for mobility, the boot's 90-degree flex profile enables effortless skateability and fluid entry into RVH, empowering goalies to stay reactive and anchored to the post in critical moments.
- Cutting-edge SlidePlates minimize ice friction for lightning-fast lateral slides without sacrificing energy. The removable design adds customizability for goalies seeking optimal inertia and enhanced slide control under pressure.
- Fully adjustable strapping at the knee, calf, and boot allows for precise tuning. Goalies can personalize pad rotation, butterfly mechanics, and leg channel tension—ensuring a locked-in, responsive fit tailored to individual playing styles.

SURGE MID CURVE BLOCKER

- Mid Curve (MC) Strategically engineered with a MC profile activates from the board's centerline, this shape ramps up puck elevation—sending rebounds high and out of danger zones with each save. The upper section aggressively cuts off shooting angles to prevent pucks from passing by, giving goaltenders the tactical edge in both containment and counterattack.
- Pro Protection reinforced with HyperComp panels and high-grade internals to launch rebounds out of harms way.
- ProPalmX | Tested and trusted by pros, the removable Ax Suede palm with additional printed grip grip combines premium feel with long-lasting durability. It's the palm that keeps pace with the game.
- Strategically placed foam padding around the index finger adds a vital layer of impact resistance, elevating protection without sacrificing comfort—perfect for unpredictable deflections and scrambles in the crease.
- The open cuff configuration enhances range of motion for quick saves and confident puckhandling. Whether deflecting with precision or executing breakout passes, this design keeps the wrist free and tactical play sharp.

ALPHA BLOCKERS

RITUAL X5 CHEST & ARM TECHNOLOGY

RX5^{RTL}

CoverEDGE+

Shoulder floaters maximize coverage and stopping power with HyperComp reinforced build with no pectoral break. Removable pad allows for built in customization of shoulder height.

AxyFlex2

Ultimate streamlined arm design that maximizes mobility without sacrificing protection.

Perfect fit

Easy Velcro adjustments at the shoulders, backplate, sides and torso.

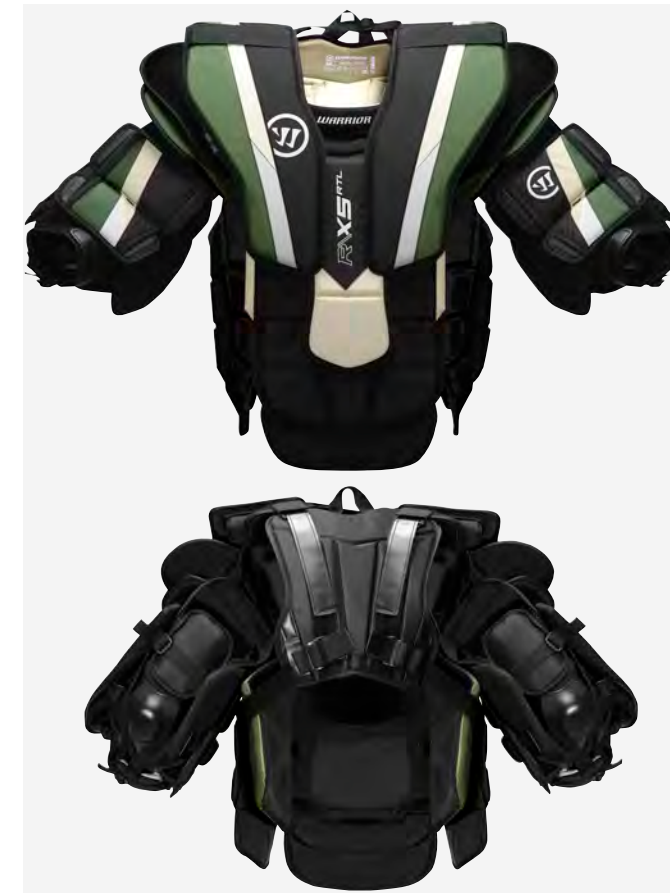

Bone System

Complete protection during RVH and on poor angle shots. Neoprene connectors between triceps, elbow and forearm pads to close gaps and keep the arm securely inside the arm sleeve.

RX5 RTL CHEST & ARM

Protection | Superior internal protection package to play fearlessly in the crease. HyperComp and lightweight HD foams strategically placed throughout.

AxyFlex2 | Ultimate streamlined arm design that maximizes mobility without sacrificing protection.

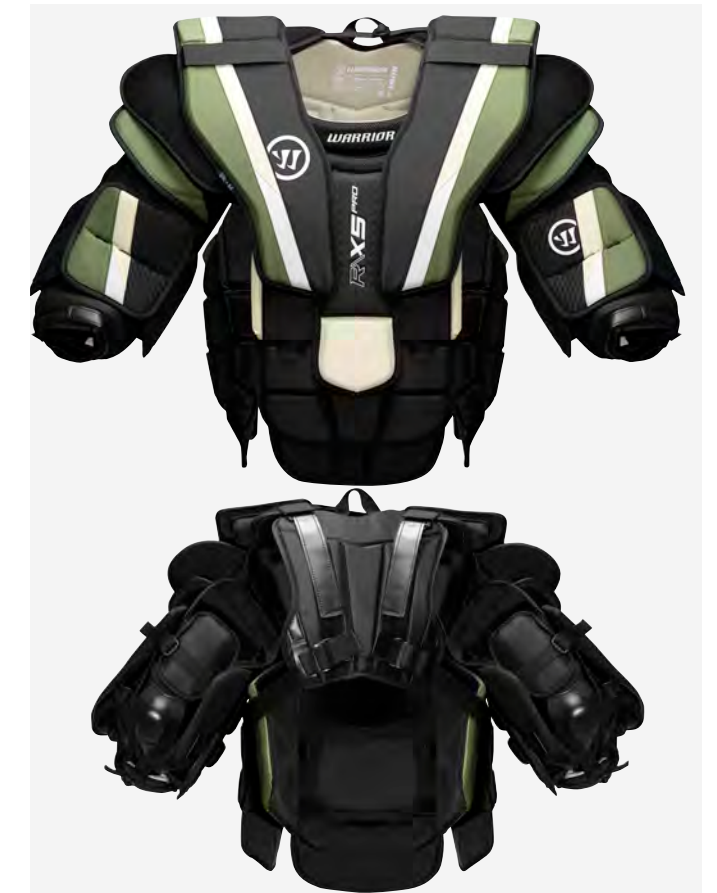

CoverEDGE+ Technology | Shoulder floaters maximize coverage and stopping power with HyperComp reinforced build with no pectoral break. Removable pad allows for built in customization of shoulder height.

Bone System | Complete protection during RVH and on poor angle shots. Neoprene connectors between triceps, elbow and forearm pads to close gaps and keep the arm securely inside the arm sleeve.

COVERT QR

Low-Kick Flex Profile | Quick Release for fast plays and effortless ability to launch high passes.

Asymmetrical Shaft Geometry | Enhanced bottom hand control, leverage and accuracy with increased durability strength against heavy puck impacts.

Minimus Carbon 25 | This carbon weave is flat, spread-tow material that optimizes strength by reducing fiber crimp and deformation in the composite layering. The weave is thin and super light, yet extremely strong and resistant to damage.

SlideGrip Technology | Textured shoulder for additional grip and rebound control. Matte finish shaft reduces friction for easy blocker transitions into the shooting and pokecheck position.

Hi-Fused Construction | Super light balanced feel for efficient blockerhand movements.

R\F2 PRO

XFOAM

OUR MOST ADVANCED IMPACT ABSORBING FOAM PROVIDES A TARGETED BARRIER ON IMPACTS TO THE FOREHEAD AND WORKS IN CONJUNCTION WITH THE OUTER SHELL TO PROTECT AGAINST INJURY.

IMPAX FOAM

DUAL DENSITIES OF OUR PREMIUM IMPACT ABSORBING FOAM PROVIDE THE OPTIMAL BALANCE OF PROTECTION, COMFORT AND WEIGHT REDUCTION.

FANTOM FIT

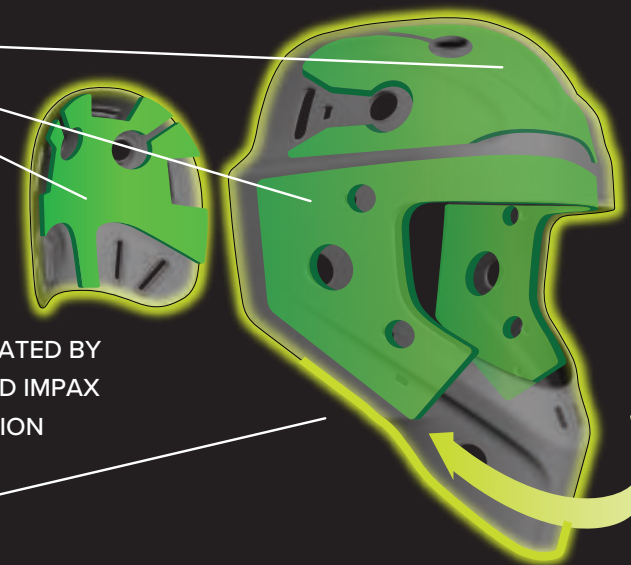

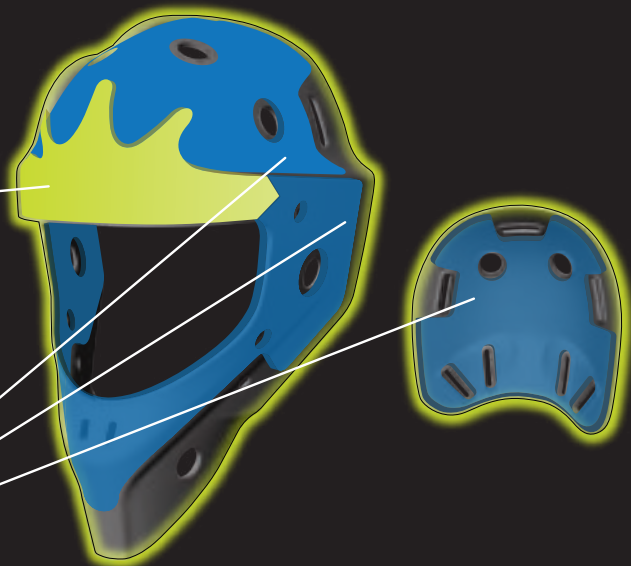

ULTIMATE COMFORT ACHIEVED THROUGH OPTIMUM FIT CHARACTERISTICS.

OMNISHOCK+ SYSTEM

A HOLISTIC APPROACH TO HEAD PROTECTION FOCUSED ON SAFETY FIRST. ALL SHELL AND LINER COMPOSITIONS ARE INTEGRATED BY DESIGN. A COMBINATION OF X FOAM AND DUAL-DENSITY MOLDED IMPAX FOAMS, THE OMNISHOCK+ DESIGN PROVIDES ULTIMATE PROTECTION AGAINST PUCK IMPACTS AND COLLISIONS WITHIN THE CREASE.

CHIN MOBILITY

THE R\F2 CHIN MAXIMIZES MOBILITY WITHOUT SACRIFICING PROTECTION SO THE GOALIE CAN EFFICIENTLY MOVE THEIR HEAD WITH MINIMAL CHEST PROTECTOR INTERFERENCE. THIS MAKES TRACKING PUCKS INTO THE BODY AND WATCHING PLAYS BEHIND THE NET EFFORTLESS.
